Code	Reflectivity	Description	Size	Aluminum Plate Thickness	Lampshade Diameter
LLRA0400000068	High reflective aluminum 95%	Easy to install Low weight, low transportation cost	45*45*19	0.4mm	
LLRB0400000068	High reflective aluminum 95%	6" high transmittance strengthened glass tube Large lampshade, large reflection area Closed space design, combined with fans, effective cooling American Standard E39	67*64*18	0.4mm	6"
LLRC0400000031	High reflective aluminum 95%	6" high transmittance strengthened glass tube	63*15.2*15.2	0.4mm	6"
LLRD0400000068	High reflective aluminum 95%	Mainstream specifications Use on integrated light	31*24.5*11	0.4mm	
LLRE0000000069	High reflective aluminum 90%	Nano material reflector			
LLRF0400000069	High reflective aluminum 95%	Simple structure and easy to instal American Standard E39/European standard E40I		0.4mm	

Cords

Give me a piece of land, and I'll give you back a garden of promise.

Code	Wire Length	Specification	Description
LCOA2E7515A047	1.5m	H05VV-F	Connect power supply and ballast
LCOB1M1615A047	1.5m	STW 16 gauge	Connect power supply and ballast
LCOC1M1615A047	1.5m	SJTW 16 gauge	Connect power supply and ballast
LCOC2M1650B047	5m	STW 16 gauge	Increase the distance between the ballast and reflector
LCOB2M1650B047	5m	STW 16 gauge	5kv E39 mogul base socket
LCOC1M1600C047		STW 16	adapts Lampcord plug to US 120V plug
LCOC1M1600C047		STW 16	Adapts ballast to Hydrofarm reflector
